

Dear Principal

From **Sunday 6 August**, the school bus and regular route bus services in your area that are currently operated by Transdev will instead be operated by Transit Systems. Transit Systems is an established and experienced bus operator, with existing operations in Sydney's Inner West and Southwest suburbs.

We would like to take the opportunity to assure you that we take our commitments and responsibility for bus service provision very seriously, and we will ensure that provision of school bus services, and regular bus routes that service schools within our operating area, are always prioritised for the safety of students.

We would like to assure you that that current routes and stops that are being delivered will continue to be delivered under Transit Systems.

Please read the following information which has been provided for the benefit of your staff and students.
