

Holsworthy High School

Assessment Policy Booklet

Year 9, 2024

INFORMATION FOR YEAR 9 STUDENTS AND PARENTS:

It is the school's responsibility to determine whether each student has **satisfactorily studied** each course they have undertaken and whether they have had a **satisfactory record of attendance** and application for the ROSA credential in Year 10.

ASSESSMENT TASK PROCEDURES – YEAR 9

Where can students get help?

There are many sources of support for students for assessment items and exams. Students should seek assistance well before the due date if they require support with assignments or exams. Supports include:

- The Class Teacher.
- The Learning Support Team with Ms. Siqueira.
- The Library Centre Teachers.
- The Year Advisers.
- The Subject Head Teacher.
- Homework Club and / or Maths Boost.

Students will be given at least **two weeks' notice** for assessment tasks and will be asked to sign a record of issue form acknowledging receiving the task or be informed of the task electronically. Tasks must be submitted on the due date and time provided by the teacher when the task is handed out. The time frame for assessments in this booklet should be used as a guide and may vary in some circumstances.

If a student forgets to bring in a completed task on the due date they can seek permission from the class teacher to submit it electronically to the class teacher. If permission is given, students must have sent the task to the teacher by **4.00 pm on that school day**.

Tasks that are not submitted on the due date will be **penalised 20% per school day** that the task is late. After a period of five school days the student will not receive any marks and will be issued a detention during which time they must complete the task at school. Failure to complete the detention then becomes a school discipline matter. Parents will be notified by the class teacher if a student fails to submit an assessment item.

Students who are **unable to submit the task on the due date** because of illness or exceptional circumstances will be required to bring a **note of explanation** from home. They will also need to **hand in the task on the first day they return to school**. In subjects where tasks are performance based (e.g. Music) students may be required to complete their performance in their own time as soon as possible after returning to school.

Students who are absent on the day a task is due because of school related activities (e.g. knockout sport) are responsible for notifying the teacher of the clash of dates as soon as possible. If required alternative arrangements for submission will then be made after consultation with the Head Teacher.

Students will be penalised for cheating, making a non-serious attempt, plagiarising, or inappropriate behaviour during an examination or assessment item. This will also result in communication with the parent. Technical or computer problems will not be a valid reason for the late submission of tasks.

All tasks must be completed and submitted. Failure to complete and submit a genuine attempt at an assessment task will result in a decreased grade for that subject.

What are Performance Descriptors?

Performance descriptors indicate the standard reached by a student and in the subject. Teachers use the performance descriptors, the syllabus outcomes and the assessment criteria to determine student grades. The grading for subjects is set out below.

NSW EDUCATION STANDARDS AUTHORITY GENERAL PERFORMANCE DESCRIPTORS.

Grade	General Performance Descriptors
A	A grade indicating excellent achievement in the course. The student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.
B	A grade indicating a high level of achievement in the course. The student has a thorough knowledge of and understanding of the content and a high level of competence in the processes and skills. In addition, the student is able to apply this knowledge and these skills to most situations.
C	A grade indicating satisfactory achievement in the course. The student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.
D	A grade indicating basic achievement in the course. The student has a basic knowledge and understanding of the content and has achieved a limited level of competence in the processes and skills.
E	A grade indicating elementary achievement in the course. The student has an elementary knowledge and understanding in few areas of the content and has achieved very limited competence in some of the processes and skills.
N	Where "N" appears in place of an A to E grade it indicates that the student has failed to meet one or more of the General Performance Descriptors.

Where an A to E grade appears opposite a course, the student has satisfactorily completed the course by meeting the following requirements in:

- a) **attendance** - meeting the required number of hours for each course.
- b) **participation** in the required learning experiences and assessment tasks.
- c) **effort** and **diligence**.
- d) **achievement** of at least some of the course goals.
